

ReEnergize Ohio is a partnership between the Ohio Treasurer of State and local banks to provide reduced rate financing to small business improvement projects. The program enables Ohio businesses to receive up to a 3% interest rate reduction on bank loans for up to four years with no option for renewal. The maximum loan amount the interest rate reduction can be applied to is \$550,000. The interest reduction is based on the bank loan's interest rate, for interest rates less than or equal to 5% the reduction is 2.1%, and for rates greater than 5% the reduction is 3%.

Apply for ReEnergize Ohio

Here are the easy steps to apply for ReEnergize Ohio:

1. Locate a bank that is currently participating in this Ohio Linked Deposit Program. To do this, start on this website www.tos.ohio.gov/depositorybanks which lists all banks that are qualified to participate in Ohio Linked Deposit Programs. If your preferred bank does not offer ReEnergize Ohio, contact the Economic Development department for help finding a participating bank.
2. Obtain pre-approval for a loan from the participating bank and establish a borrowing rate.
3. Complete an online ReEnergize Ohio application, attach the project quotes/receipts/invoices electronically to the application (if you are unable to access the internet, please work with your lender to fill out your application, and upload the supporting project documentation). The total estimates, quotes, and/or receipts submitted for work performed must be greater than or equal to the total value of the loan for which a ReEnergize Ohio interest rate reduction is sought.

If you have any questions regarding the ReEnergize Ohio program: visit our website at <http://www.tos.ohio.gov/ReEnergizeOhio> or (614) 466-6546, or e-mail ReEnergizeOhio@tos.ohio.gov

The following blank application form is for information gathering purposes only. All applications must be completed online.

The business owner can fill out an application online, however please be advised that the first step is to find a participating bank and speak with a loan officer to ensure the bank is willing to participate in the ReEnergize Ohio program. Once a loan agreement and interest rate is reached with the bank, complete the online application. The loan does not need to close prior to submitting the online application.

The loan officer at a participating bank can also create the online application on behalf of the business owner using a Banker Login to access the Economic Development Linked Deposit portal. Please note that there is a business owner electronic signature that attests all information provided in the application is correct, and that the owner is agreeing to the terms and conditions of the program as stated in the "Certification Statement" section of the application. If the banker is not comfortable with completing the electronic certification signature without the business owner's signature, print this application, and after it is signed by the business owner, scan the document and save it as a PDF file, then upload the file as an attachment to the application. The banker must complete the Lender page of the application that provides the loan terms agreed to with the applicant and the electronic certification signature.

Project documentation concerning the project(s) the business owner is implementing must be provided at the time of application. The documents should contain bids or contracts that list the project details that the proceeds of the loan will cover, which includes the labor and misc. materials needed to complete the project(s). The total documented cost for the project must be greater than or equal to the total value of the loan for which a ReEnergize Ohio interest rate reduction is sought.

When the application and all the information needed to qualify the business improvement project(s) have been received, the application approval process can be completed in less than or equal to 5 business days.
